Wood's ELFI 150 is a very compact and almost completely silent air purifier. It's very low noise level and energy consumption make it ideal for bedrooms. The patented filter media makes the machine very efficient with a very low power consumption of maximum 10W.

The Wood's ELFI 150 cleans the air from dust, pollen, bacteria, and radon particles, creating a healthier indoor environment. This unit can be both wall mounted and freestanding.
