# 1 About Us.

## Introduction

**TECHSOVAL** Engineering Solutions is an innovative company, established in 2020, that supports customers with design services, product development, mechanical automation, technical solutions, and product execution.

Together with our partners, we can offer you the best sheet metal cutting services by laser or stamping, bending, welding, electrostatic painting and hot dip galvanizing.

## 2 Mission & Vision.

### MISSION

- At **TECHSOVAL** Engineering Solutions, our mission is to provide our clients with complete technical solutions – from product design and development to precise execution – using modern technologies such as laser cutting, stamping, bending, welding, electrostatic painting and galvanizing. We are committed to delivering quality, innovation and reliability in every project.

### VISION

- We aim to become a trusted partner nationally and internationally, recognized for engineering excellence, innovation in mechanical solutions and adaptability to the ever-changing demands of the industry. We believe in sustainable development, cutting-edge technology and solid relationships with our customers and partners.
- We want our products to be so unique, valuable to our customers, and crucial to their success that they become their only viable choice.

### 3

## Our Philosophy.

At **TECHSOVAL**, we believe that technical innovation and precise execution go hand in hand with respect for people, partnerships, and the environment.

We are guided by the following principles:

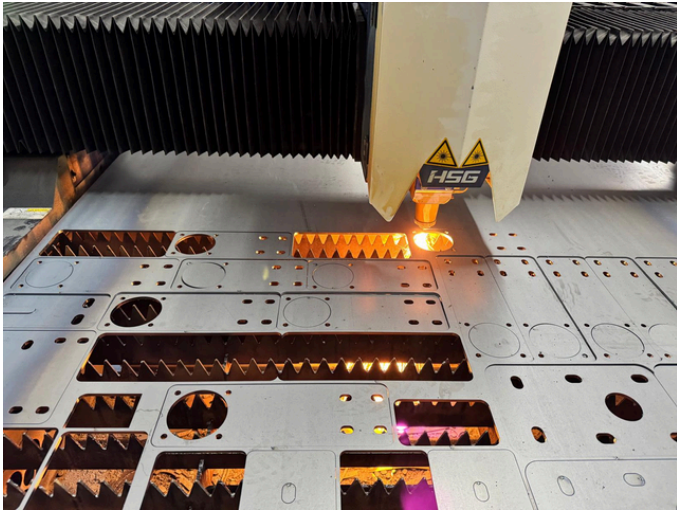

- Uncompromising quality – every piece, every project, every solution reflects our commitment to excellence.
- Engineering mindset, solution-oriented – we don't just deliver products; we solve real problems.
- Flexibility and adaptability – we quickly adjust to client requirements and market changes.
- Respect and transparency – in communication, collaboration, and throughout every stage of the process.
- Continuous development – we invest in modern technologies and our team to continuously improve our services.

This philosophy motivates us to build more than just products – we build trust.
